LONDON OFFICE-SE COCKSPUB ST., TRAFAL-

The report of the sale of THE WORLD, sent out from this city by some fabricator of falsehoods, is absolutely without any foundation in fact. The rumor was so absurd in its terms that it did not seem to call for a formal denial; but inasmuch as inquiries reach this office from remote parts of the country it may be said once and for all that is not for sale; that the question of a come out. change in its ownership was never considered by its proprietor, and that it will continue to be what it has grown to be under his direction—the greatest newspaper and the foremost Democratic journal in the United States.

COURTESY.

It is remarkable that a quality which should be, if not the cement, at least the sweetening of society is not found oftener a this city. Courtesy puts such a differen color on every action. A man may be offered something which he wants, or granted some right, and the disagreeable manner in which it is done can spoil the pleasure it should give him. On the other hand, one may be checked in something he desires, or something be denied to him, but courtesy accompanies the act, and he feel

Courtesy costs nothing to one's purse Usually its exercise imposes little labor. It is a quality made up of forbearance, kindness, sympathy and tact. It is the oil which makes the machinery of social life run smoothly. A creaking wheel does not do its work well and is offensive, and the wheels of human intercourse will creak it they are rusted with discourtesy.

Americans are good-natured. Take a crowd and see the good humor and patience it displays. But we are discourteous be cause so charged with business directness that we are brusque, have no time to waste on frills, and would rather jostle our neighbor than move him by suavity of address or manner. Courtesy is a virtue which may be well cultivated.

LOAD THE CHRISTMAS TREE.

By an other whole day the length of time before Christmas comes has been decreased since THE EVENING WORLD printed its last appeal on behalf of those po children for whom its Christmas-Tree Fund is being raised. But there is still time for all who find the impulse in their hearts to take advantage of this opportunity of doing a great good.

The way of real charity is, for those who walk in it, a broad avenue leading straight to the castle of Sure Reward. And what charity can be more real than this that is proposed-the proper clothing of shivering little bodies, the proper feeding of empty little stomachs, the warming and cheering of little hearts through the presentation of some of the trifles that go to make happy the lives and play-hours of more fortunate

Oh, it's to be a noble growth, that Christmas tree, and it may well be deemed a privflege to have had a hand in loading it with its precious fruit.

WANTS MORE STREET SWEEPERS.

Mr. BEATTIE has not kept the streets clean. He has, however, written a letter. Twice as many street sweepers as at pres ent are necessary, he says, to keep all the streets clean, and, to the end of increasing his force, he asks an increase in appropriations. If Mr. BRATTIE's facts are as exact as his financial logic, the additional money and sweepers should be forthcoming. The city, for its own health and comfort, cannot stint itself in this regard. But it should be sure of a return for its money.

GIVE US BAPID TRANSIT. Col. HAIN absolutely denies that there is unreasonable delay on the west side Ele vated road above Fifty-ninth street. Pas sengers who ride there daily declare that the road is terribly choked in commission hours, and that delays of half an hour are not infrequent. The moral of it all is th old one, that New York must have a sure, safe system of actual rapid transit, and must have it quickly.

Unless something gives way at Washington, the Senate's special committee or looking into the financial situation won't get far beyond the purely looking process. The Force-bill-free-coinage-antisilver-reapportionment fight may be interesting in its way, but to the business public it really seems as if the situation demanded at least the temporary substitution of the patriotic for the partisan, in National legislation.

VACRANT VERSES.

The Stopping at the Brook. At last our weary senses know
How quiet are these bummer hills;
Our horses, resking long ago,
Now pause to dring where, cool and low

O grateful pause! wherein we see No changing to the landscape round, No smiting of its seenery! What restui immability The eye has in all objects found!

O grateful pause, wherein we hear, In calm expansion over a l. The whisper of the pinewcon mear, And, lightly to the listening ear, The brook smoog its pebbes tall.

But now each horse has drunk, and he whose looks but one desire twies. Climbs to his east, and soon we see The shirting or the scenery and only hear the rumbing wheat, —Kulph M. Naus, in Great Hunsekee.

Even photographers are down on the high sleeve heads. This is the view a Broadway artist takes of them: "It is slmost impossible to take a good picture of a lady that wears a dress with siceves puffed and elevated at the shoulders. Some of these 'shoulder humas are so high that they cause a shadow to be cast over the wearer's neck and lower part of the face. I have had several instances of spolled pictures on this account. At first the fallure of the photograph to bring out the sitter's chin in strong relief puzzled me. I studied the matter for several days, and tried experiments with my patrous until I became satisfied that the trouble was caused by the high-topped sleeves. The opera liself is extremely tragic, the story somewhat resembling those of the imported melodramus that have been successful in London at the Surrey and the Adelphi. The scenes are laid in Hungary, and the lurid motives of the rhot are frathede, lust, revenge and the blackest of hatred. The story is certainly dramatic, however, and not unsuited to grand opera. My nose was always stuffed up, so that it was hard for my to get enough air through it to supply my lungs. The mucus from my nose would drop down into my throat, making it sore and almost choking me at times. I was kept continually hawking and splitting in order to clear my throat, and I would keep it op until I would get a fit of vomiting.

It is awful. Henderson and De Pell fought duel, and De rell was dweadfully hurt-in fact, he died."

* Did Henderson shoot him?"

*On, no. Poor Chollie died of fright, don't you know.
